- 1,000 euros/year
- 5,000 euros/year
- 10,000 euros/year

SMEs and Research Organisations

Large companies w/ worldwide turnover of less than 500 M€

Large companies w/ worldwide turnover of more than 500 M€

This fixed contribution is what allows AENEAS:

to function;

to organise events like the one you are participating in today;

to update the Strategic Research Agenda;

to represent R&D actors in nanoelectronics all across Europe...

We are a non-profit organisation so every penny spent is working for you

What about the variable contribution?

- It's based on an organisation's participation in projects of the ENIAC Joint Undertaking
- For every person year, you will be charged 2,000 euros.

First reaction:

This is **outrageous!** Why would I join if I have to spend money!

Informed reaction:

AENEAS pays 2/3 of the operating costs of the ENIAC Joint Undertaking. The JU is in turn funding my project. If I don't join AENEAS, there's a risk that it will not be able to continue and my funding will disappear!
